

## **MSHS Launches Mitsui North American Cooperative Repair Shop**

Motor-Services Hugo Stamp, Inc. (MSHS) is proud to announce that it has been awarded the role of Mitsui Cooperative Repair Shop for North America and is a turn-key supplier of service, parts and overhauls for Mitsui two-stroke engines and turbochargers.

Providing a combination of factory-trained service engineers and a comprehensive inventory of Mitsui parts, MSHS will support Mitsui engines and turbochargers from its fully equipped service facilities in Florida and Louisiana. The MSHS Turbocharger service facility at The Grand Bahama Shipyard, Grand Bahama is also equipped to support Mitsui turbochargers during scheduled dry dock or when urgent service is required.

MSHS services to Mitsui engines and turbochargers are also supported by the recently launched On Site Machining joint venture, MSHS Metalock Engineering USA, supporting Mitsui marine applications by offering on site repair services to crankshafts and critical engine components.

Rodrigo Quilula, Sr. Vice President of the MSHS Group, stated, "We are honored to have been awarded the role of Mitsui Cooperative Repair Shop for North America. We are excited to bring MSHS service excellence in two stroke engines and turbochargers to Mitsui customers. Our ongoing investment shows the commitment MSHS has in partnering with leading engine manufacturers to bring the highest level of service and accessibility to our customers. "

## **About Motor-Services Hugo Stamp, Inc.**

Founded in 1983, MSHS provides turnkey solutions for the maritime and stationary power industries. Pursuit of engineering excellence and commitment to customer service has enabled MSHS to establish relationships with customers worldwide.

MSHS continually meets customers' requirements through the rapid delivery of solutions, and competitive pricing. MSHS has dynamically established a strategy for continuous reinvestment in resources and infrastructure. This constant drive for modernization has enabled the company to maintain consistent competitive advantages in the maritime industry.
