

FOR IMMEDIATE RELEASE

MSHS Announces the Opening of Engine Service Facility in New Orleans, LA

Motor-Services Hugo Stamp, Inc. (MSHS) is proud to announce expansion of its service facility in New Orleans, Louisiana.

MSHS, a turn-key supplier of engine and auxiliary systems service, parts and overhauls, enhances its existing New Orleans-based turbocharger service facility with comprehensive in-house and on-site engine service and overhaul. Serving the Gulf Region, including the Ports of New Orleans and Houston, MSHS Gulf services all medium and slow speed engines, turbochargers and auxiliary systems of filtration, separation and thrusters and compressors.

MSHS is a member of the MAN PrimeServ Network and is authorized by Hyundai Himsen, Daihatsu and SEMT Pielstick, Napier, KBB and METurbo. Factory trained service engineers and access to the OEM supply chains provide comprehensive MSHS 24/7 engine and turbocharger service to vessels, offshore installations, compressor stations, pipelines and refineries. All MSHS service engineers are rig ready; HUET and SafeGulf trained.

Are Frieesecke, President of the MSHS Group, stated, "The addition of engine service to the MSHS Gulf Facility is part of our ongoing commitment to bring MSHS quality and service to our customers, ensuring we can support our customers whenever and wherever they need us."

Rodrigo Quilula, Vice President, MSHS stated: "The expansion of our MSHS service offering in the Gulf represents an important step towards developing the support available to all vessels and land-based applications within the region."

About Motor-Services Hugo Stamp, Inc.

Founded in 1983, MSHS provides turnkey solutions for the maritime and stationary power industries. Pursuit of engineering excellence and commitment to customer service has enabled MSHS to establish relationships with customers worldwide.

MSHS continually meets customers' requirements through the rapid delivery of solutions, and competitive pricing. MSHS has dynamically established a strategy for continuous reinvestment in resources and infrastructure. This constant drive for modernization has enabled the company to maintain consistent competitive advantages in the maritime industry.
