#### New Strategic Partnership Announcement

ZF Marine Propulsion Systems Miramar, LLC and Motor-Services Hugo Stamp, Inc. to  
Deliver Excellence to the Marine Industry

**Fort Lauderdale, Florida**, – Motor-Services Hugo Stamp, Inc. (MSHS), an experienced provider of power systems in the marine and stationary power industry, is pleased to announce its new strategic partnership with ZF Marine Propulsion Systems Miramar, LLC (ZF Marine).

ZF Marine is a worldwide leader in marine propulsion systems, supplying transmissions, control systems, thrusters, propellers, and surface drives for all types of ships including pleasure craft and superyachts as well as commercial and government vessels.

MSHS sells and services the finest products in their class. The factory-trained MSHS service engineers have years of experience solving service issues, on the work bench and on-site.

"ZF Marine has established a reputation for being a market leader in propulsion system technology. Their genuine replacement parts are built to exact factory specification and MSHS is excited to be one of their selected dealers to work with customers to ensure prompt service and installation as well as comprehensive customer support," said Falk Boehme, MSHS Service Manager, Yacht and High-Speed Propulsion.

"Our commitment to quality and to providing top notch service is why ZF Marine has partnered with MSHS. We're confident the MSHS team will use their technical experience and training to not only meet, but exceed our customer's expectations." said Tim McFarland, Head Aftermarket, ZF Marine Propulsion Systems, Miramar.

Working together, ZF Marine and MSHS plan to offer the perfect combination of progressive technology, technical expertise and 24/7 support.

**ZF Marine** is a world leader in marine propulsion technology. ZF's Marine business is over 75 years old. The company is an industry leader in propulsion technology for both pleasure and commercial craft.
